Dear Denman:

I hope that you enjoyed playing at HFCC as much as we enjoyed having you in.

On two separate occasions now, you have come in and treated our audiences to some extraordinary piano techniques. On neither occasion was a single key or string affected in any way but positively. In fact all of our pianos at HFCC are crying out for similar stimulus. I hope that someday you might be able to treat a very enthusiastic crowd in Ann Arbor to the same. I know that they, and others, are often concerned as to how the preparations will affect their pianos. Please feel free to pass this note on in hopes of assuring facilitators that your professional treatment of pianos does no harm but bring smiles to faces throughout the audience. Take care and hope to see you again soon,

Pat Frisco
